Summary

B.Tech in Artificial Intelligence and Data Science, passionate about applying AI to real-world problems and enhancing decision-making. With a strong foundation in AI, machine learning, data science, and deep learning, I excel in data-driven problem-solving and Skilled in Python, SQL, big data, and web development, I am committed to continuous learning and staying ahead in emerging technologies. I aim to apply my expertise through projects, internships, and hands-on experience to drive impactful AI solutions.

Technical Skill

- **Programming & Development:** Python, JavaScript, HTML5, CSS3, Tailwind CSS, Full-Stack Development, Responsive Design, Mobile-First Development, API Integration (REST), Git/GitHub (Version Control)
- **AI & Databases:** Natural Language Processing (NLP), Hugging Face Transformers, SQL, Firebase, Real-time Data Management
- **Cloud & Platforms:** AWS

Education

AMS College of Engineering

(Anna University Affiliated)

2022-2026

B.TECH Artificial intelligence and data science

Experience

WhatsApp AI Chatbot (Client Project)

2025

- Engineered and Deployed a live WhatsApp chatbot for a client, leveraging Hugging Face transformer models for real-time Natural Language Processing (NLP) across key customer interactions.
- Integrated the chatbot using the WhatsApp Business API, ensuring seamless production deployment and responsible for ongoing performance tuning.

E-Commerce Client Project (Team Development)

2025

- Delivered a live, client-facing e-commerce solution on time and budget, collaboratively managing the full development lifecycle.
- Engineered the platform to host 200+ product listings with real-time inventory tracking and a mobile-first responsive design

Projects

AI Fluently: Interactive Language Learning Platform grammar

2018- 2022

- Developed a mobile-first React.js web application leveraging the Google Gemini API and Web Speech API to offer comprehensive language practice. Features include AI-powered grammar correction (text & speech), advanced vocabulary building, sentence rephrasing, idiom explanations, and interactive quizzes (synonyms, vocabulary, grammar).

AI Chatbot with Voice Assistant – AI Study Planner

2016 - 2018

- Developed a full-stack AI chatbot using React, FastAPI, and Groq LLM API to help students plan studies via voice and text. Applied skills in NLP, API integration, and user-centric design

Achievements

Clubee: Club Management Suite (24-Hour Hackathon)

- Secured Finalist position in a competitive 24-hour hackathon by rapidly designing and deploying the Clubee website prototype.
